OUR VISION

To be a Centre of excellence and ensure efficient, integrated, equitable affordable and accessible holistic healthcare services to the community.

OUR MISSION

Kenya is increasingly experiencing a massive demand for health services, which is caused by the growing population and emerging and re-emerging diseases. Consequently, there is congestion in public health facilities and a shortage of essential medical personnel. Sonak Community Medical Centre aims to provide quality holistic, integrated healthcare services that are equitable, affordable and accessible to humanity exemplifying the healing ministry of Christ.

ABOUT SONAK

Sonak Community Medical Centre is a 50-bed capacity and well-equipped with medical amenities. We are located on a 2-acre piece of land that lies at Khwisero town, with the main entrance along the Khwisero- Ikolomani road. We are equipped with enough personnel and drugs to ensure patient satisfaction. Our drugs are arranged according to their classes i.e. Antimalarial, Antibiotics, Antihypertensive, Antiretroviral, Anti TBs, Syrups among others.

BACKGROUND

The Constitution of Kenya 2010 dictates that every Kenyan has the right to access the highest attainable standards of health. As a result, the Government is committed to offering an effective healthcare system with quality patient-centred care.

The Government has prioritised Universal Healthcare Coverage (UHC) and acknowledged the need for collaboration between the various sectors to achieve this dream in line with the Big Four (4) Agenda and Vision 2030.

In line with this, Sonak Community Medical Centre (SCMC) was conceptualized in 2008 by Solomon Akali Omuroka who is currently the hospital's CEO. His vision is to provide quality holistic, integrated healthcare services to the community.

CEO STATEMENT

Sonak Community Medical Centre was an idea whose time had come. I wanted to associate myself with the community. SONAK is derived from my name Solomon Akali and the community aspect is meant to show the target population that I am serving.

I wanted it to have a bearing as a service provider in this community. The conception of this facility was in 2008 when we had few credible hospitals offering healthcare services by then and I saw the need to have the facility for my people.

That was when I was licensed by the Kenya Medical Practitioners and Dentist Board and set the ball rolling for health services. Today we enjoy serving many people from the sub-counties of Khwisero, Butere, Lurambi, Ikolomani and Emu.

Our objective is client satisfaction, administering drugs as per prescription and storing drugs as per the required temperature to promote potency and effectiveness.

CEO STATEMENT

We are accredited by the Pharmaceutical Board of Drug and Poison and also by the NHIF to offer out-patient and in-patient medical services to the scheme's contributors together with their dependents.

We are happy that the majority of civil servants have opted to seek medication in our facility because of our exemplary services. In order to serve them better, we are constructing a multi-million hospital tower with a modern architectural design that will encompass all our services under one roof.

Karibu Sonak because we are here for you

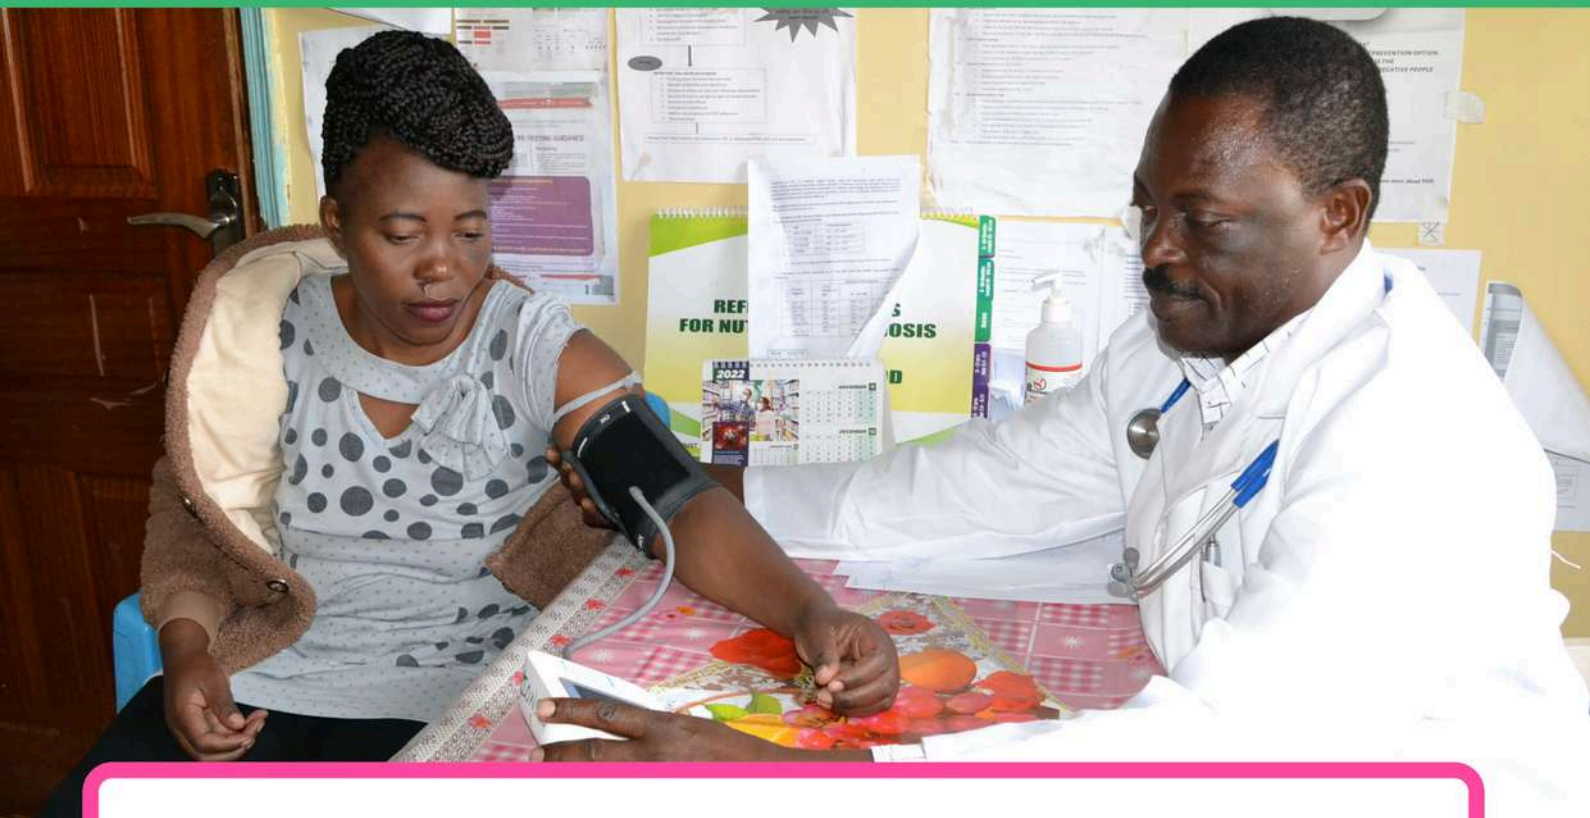

OUR SERVICES

- Doctor Consultation
- Laboratory
- Pharmacy
- Dental Care
- Mother and Child Health
- Minor Surgery
- Ultrasound
- Students Female Ward
- Paediatric Ward
- The Accident & Emergency (A&E)
- Mortuary Services

OTHER SERVICES

- Laundry Services
- Kitchen
- Incinerator

DOCTOR CONSULTATION

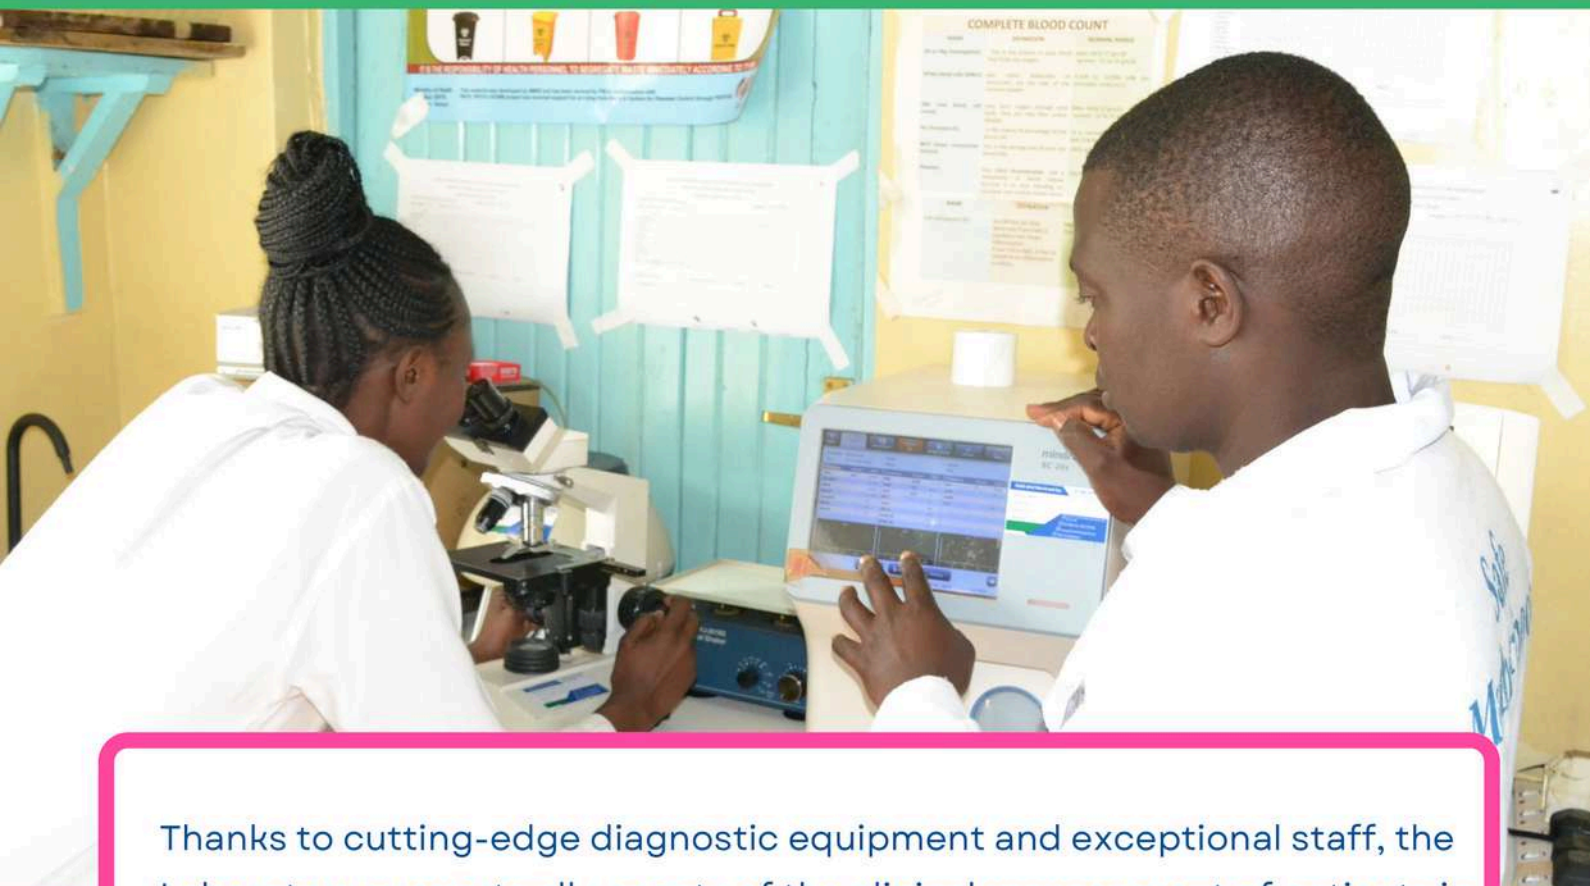

Doctor Consultation at Sonak Hospital is a comprehensive and reliable healthcare service that ensures optimal patient care. Our team of highly skilled and experienced doctors is dedicated to providing personalized consultations to address all your medical concerns.

Whether you need routine check-ups, preventive care, or treatment for specific conditions, our doctors are here to guide you every step of the way.

We prioritize patient comfort and convenience, offering flexible appointment schedules and efficient services. Our doctors take the time to listen to your symptoms, perform thorough examinations, and provide accurate diagnoses.

LABORATORY SERVICES

Thanks to cutting-edge diagnostic equipment and exceptional staff, the Laboratory supports all aspects of the clinical management of patients in terms of diagnosis, monitoring therapy, medical training, epidemiological studies, and clinical trials.

The Laboratory provides services in the following disciplines: Hematology and blood Transfusion Services, Clinical Chemistry, Microbiology and Immunology. The lab also ensures safe & adequate provision of blood and blood components for the patients in the hospital.

Some of the tests carried out in our facility include

- ▶ Liver disease tests
- ▶ Microbiology investigations
- ▶ Lipid profile
- ▶ Sickle Cell Test
- ▶ Serum Proteins
- ▶ Creatinine

PHARMACY SERVICES

The Pharmacy Department is responsible for monitoring the supply of all pharmaceuticals used in the hospital. It is in charge of purchasing, processing, dispensing and quality testing the medication stock. They are well stocked with enough varieties of drugs to cater to specific patient needs. The Pharmacists and Pharmaceutical Technologists who run the department are qualified and have extensive experience in their field. The department is committed to providing the best service to all patients to ensure good health outcomes.

DENTAL SERVICES

SCMC is focused on offering the highest quality of dental healthcare services facilitated by our highly trained team of, dental specialists and oral hygiene care providers.

Some of the tests carried out in our facility include

- ▶ Orthodontics
- ▶ Oral Surgery
- ▶ Periodontics
- ▶ Restorative dentistry

The combination of specialised skills and sophisticated technology will make the treatment experience more enjoyable than dreadful.

MOTHER AND CHILD HEALTH

Our MCH services include

▶ Antenatal care

We keep the mother and the unborn baby safe until and after delivery. It is important for pregnant women to attend ANC appointments to deal with potential risks that should be prevented or reduced.

▶ Postnatal Care

It is the great care meant for the mother and the newborn.
Family Planning: SCMC is the leading provider of family planning and contraceptive services in this region. We provide a wide range of contraceptives i.e. pills, implants and intrauterine device.

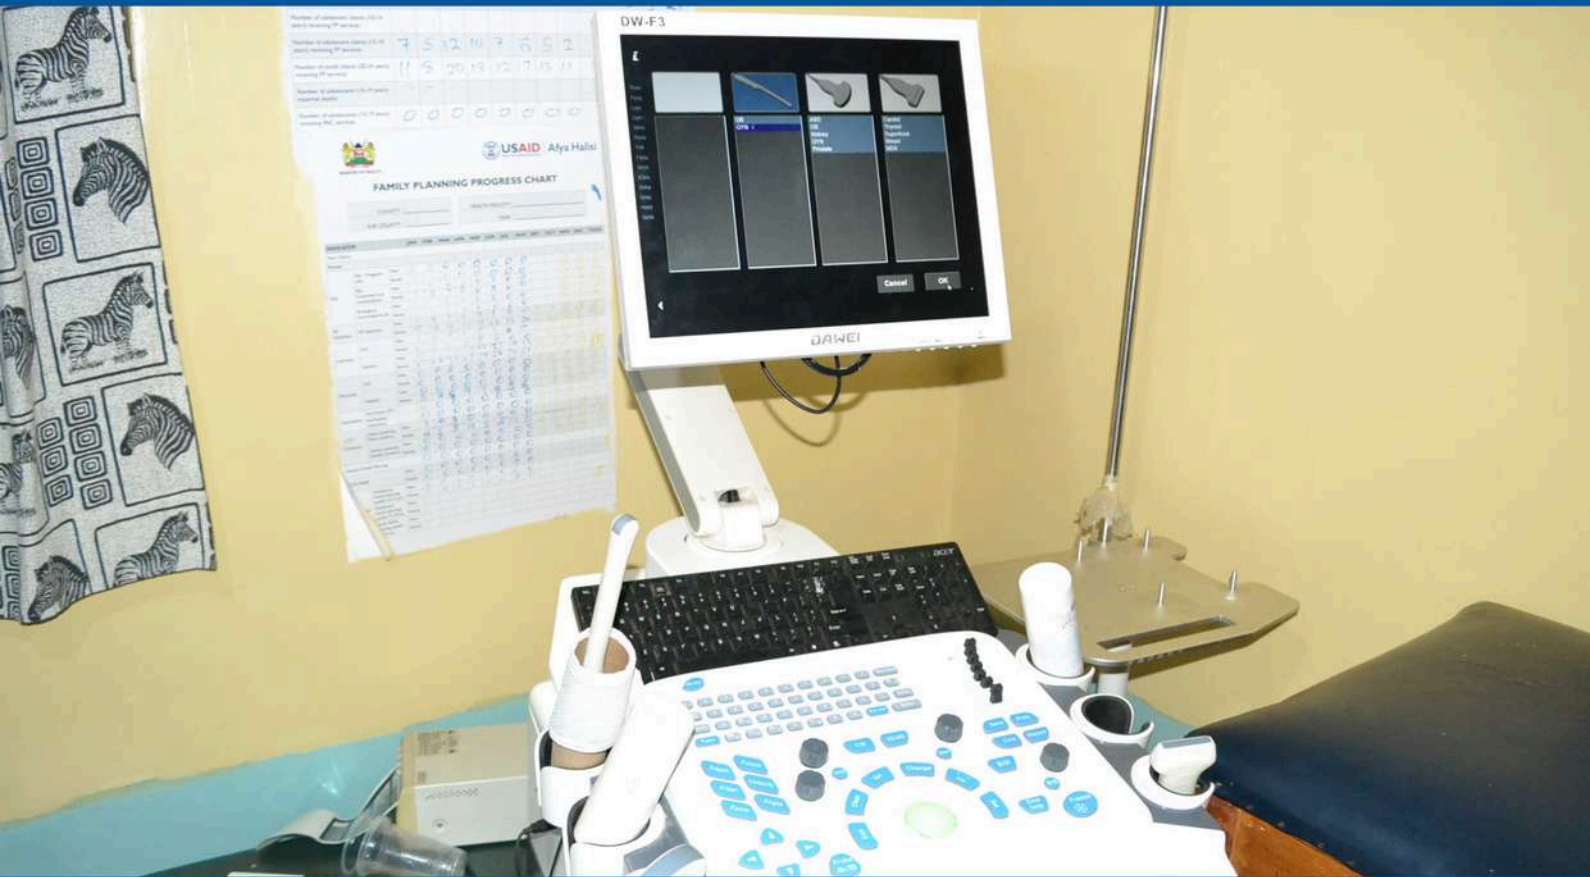

MINOR SURGERY

we offer exceptional minor surgery services that prioritize your well-being and ensure a seamless experience. Our team of highly skilled surgeons and medical professionals are dedicated to providing the highest standard of care for all minor surgical procedures.

We understand that undergoing any surgery, no matter how minor, can be daunting, which is why we strive to create a comfortable and reassuring environment for our patients.

ULTRASOUND SERVICES

Ultrasound is a medical imaging technique that uses high-frequency sound waves to produce images of the inside of the body. This non-invasive method diagnoses and monitors various medical conditions including pregnancy, kidney stones and liver diseases.

At SCMC, we use the latest technology to ensure the highest quality images are produced for accurate diagnosis. Sonak is the best healthcare facility for obstetric ultrasound, abdominal ultrasound, pelvic ultrasound, breast ultrasound and thyroid ultrasound.

STUDENTS FEMALE WARD

To ensure that we serve our female students well in secondary schools, we have a special ward for them where they are proficiently provided with healthcare services

PAEDIATRIC WARD

We are committed to improving the quality of life for every child who comes to the Hospital. Our skilled Paediatric and Child health specialists, coupled with a child-friendly environment, help us to deliver excellent outcomes for children of all ages and their families. The specialist services are patient-centred where each child gets age-appropriate individualised care.

THE ACCIDENT & EMERGENCY

The A&E department undertakes both medical and surgical emergencies. This is in light of the fact road carnages, and other forms of accidents that require immediate life-saving care are increasingly becoming a public health threat. The Department is on the frontline in offering emergency care for those who require it, thus saving lives. The department has qualified staff ready to take in matters of life or death.

MORTUARY SERVICES

Sonak Community Medical Centre Funeral Home

- ▶ Mortuary Services
- ▶ Free counselling services and first aid
- ▶ 40 body storage capacity
- ▶ Autopsy/embalming facilities
- ▶ Waiting in indoor and outdoor areas
- ▶ Ample parking space
- ▶ Reception of bodies from other funeral homes, hospitals and also from home

LAUNDRY SERVICES

The Laundry Services Department supports the Housekeeping Department by cleaning the hospital linen, and uniforms. The department is equipped with laundry support staff who handle laundry equipment given that the hospital handles delicate garments that need superior cleaning services.

KITCHEN SERVICES

Food and nutrition play an essential role in the recovery of patients. To ensure proper nutrition is given to all patients, Sonak Community Medical Centre has a kitchen used to prepare meals for patients in the wards. Quality control checks and measures are also in place to ensure the safety of food and beverages served. A multidisciplinary team inspects food supplies to ensure safety and quality. The kitchen has the capacity for mass production to cater for up to 200 individuals in one production shift.

INCINERATOR SERVICES

The incinerator helps to manage general and biomedical waste safely and effectively. The waste is segregated at the source using the standard waste segregation protocols and then delivered to the incinerator. The incinerator renders the trash non-toxic, nonhazardous, non-putrescible and reduces the volume of material for ultimate disposal.
